

Dikksha Corporation

Industrial Electrical Solutions | Automation Supplies | Commercial
Interior Fitouts

Powering Industrial Excellence Across India

Dikksha Corporation stands as your comprehensive partner for industrial electrical systems, automation technologies, and commercial infrastructure solutions. From switchgear installations to complete interior fitouts, we deliver reliability and precision for demanding industrial environments. Our expertise spans electrical distribution, safety equipment, and cutting-edge automation supplies—backed by responsive service and technical knowledge that keeps your operations running smoothly.

Warehouse: D/70, Suryam Trade Centre Kathwada,
Ahmedabad

Office: Shed No. 16, Swastik Industrial Estate Near Hinglaj
Temple, Kathwada, Ahmedabad

Industrial Switchgear & Electrical Distribution

Low & Medium Voltage Switchgear

Robust distribution panels, circuit breakers, and load centres engineered for industrial reliability and safety compliance.

Control Panels & Enclosures

Custom-configured electrical enclosures with protection ratings suitable for harsh industrial environments.

Power Management Solutions

Complete electrical infrastructure from metering systems to distribution boards, ensuring efficient power delivery.

Automation Supplies & Control Systems

PLCs & Controllers

Programmable logic controllers and industrial automation components for process control.

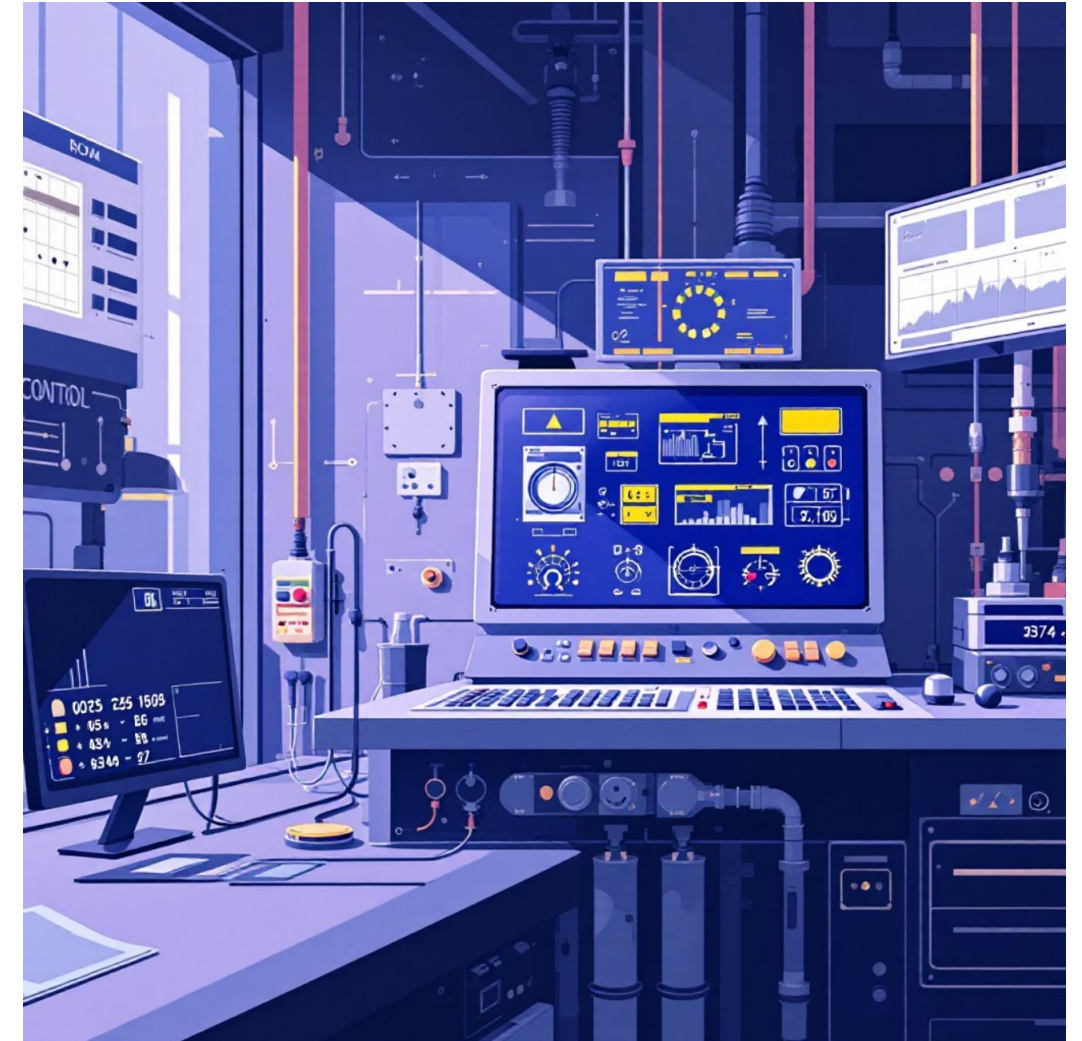

Sensors & Actuators

Precision sensing equipment and control devices for automated manufacturing systems.

Drives & Motors

Variable frequency drives and industrial motors for machinery and conveyor systems.

Safety & Protection Equipment

Industrial Rubber Mats

Anti-fatigue, anti-slip, and electrical insulation mats for workplace safety and operator comfort in demanding environments.

Garware Reflective Sunfilm

Premium solar control films reducing heat and glare whilst improving energy efficiency in commercial and industrial facilities.

GPS Tracking Devices

Real-time vehicle and asset tracking solutions for fleet management, logistics optimisation, and security monitoring.

Cables & Connectivity Infrastructure

Power Cables

Industrial-grade electrical cables rated for high-voltage distribution and harsh environmental conditions.

Fibre Optic Cables

High-bandwidth data transmission cables for telecommunications, networking, and industrial communication systems.

Copper & Aluminium Bus-Bars

Precision-manufactured bus-bars for efficient electrical distribution in switchgear and power systems.

Transformer Services & Components

Comprehensive Transformer Solutions

Transformer Oil Filtration: Professional oil purification services extending transformer lifespan and maintaining insulation properties

Replacement Parts: Genuine transformer components including bushings, gaskets, conservators, and cooling systems

Maintenance Support: Technical consultation and supply of critical spare parts for transformer upkeep

We ensure your power infrastructure operates at peak efficiency with reliable components and expert filtration services.

Complete Interior Fitout Solutions

0

¹Space Planning & Design

Functional layouts optimised for workflow, safety, and aesthetic appeal in offices and commercial spaces.

0

²Partitions & False Ceilings

Modular partition systems, suspended ceilings, and acoustic solutions for professional environments.

0

³Flooring & Wall Finishes

Durable flooring systems, wall cladding, and protective finishes suited to commercial and light industrial use.

0

⁴Electrical & HVAC Integration

Complete MEP coordination including lighting, power distribution, and climate control systems.

Complete Yarn & Folic Powder Solutions

01

Sourcing & Supply

Procurement of premium-grade yarns and high-quality flock powder from trusted manufacturers, ensuring consistent performance and reliable availability for diverse applications.

02

Quality Assurance & Testing

Comprehensive quality inspection covering fibre texture, colour fastness, flock particle uniformity, and adhesion properties to maintain top-tier product standards.

03

Product Customization & Processing

Tailored yarn specifications, flock powder colours, and particle sizes to suit textile finishing, automotive interiors, decorative, or industrial coating needs.

04

Packaging & Distribution

Safe, moisture-protected packaging solutions for yarn and flock powder, supported by efficient logistics and timely delivery across domestic and international markets.

Signage & Industrial Consumables

Customised ACP Sign Boards

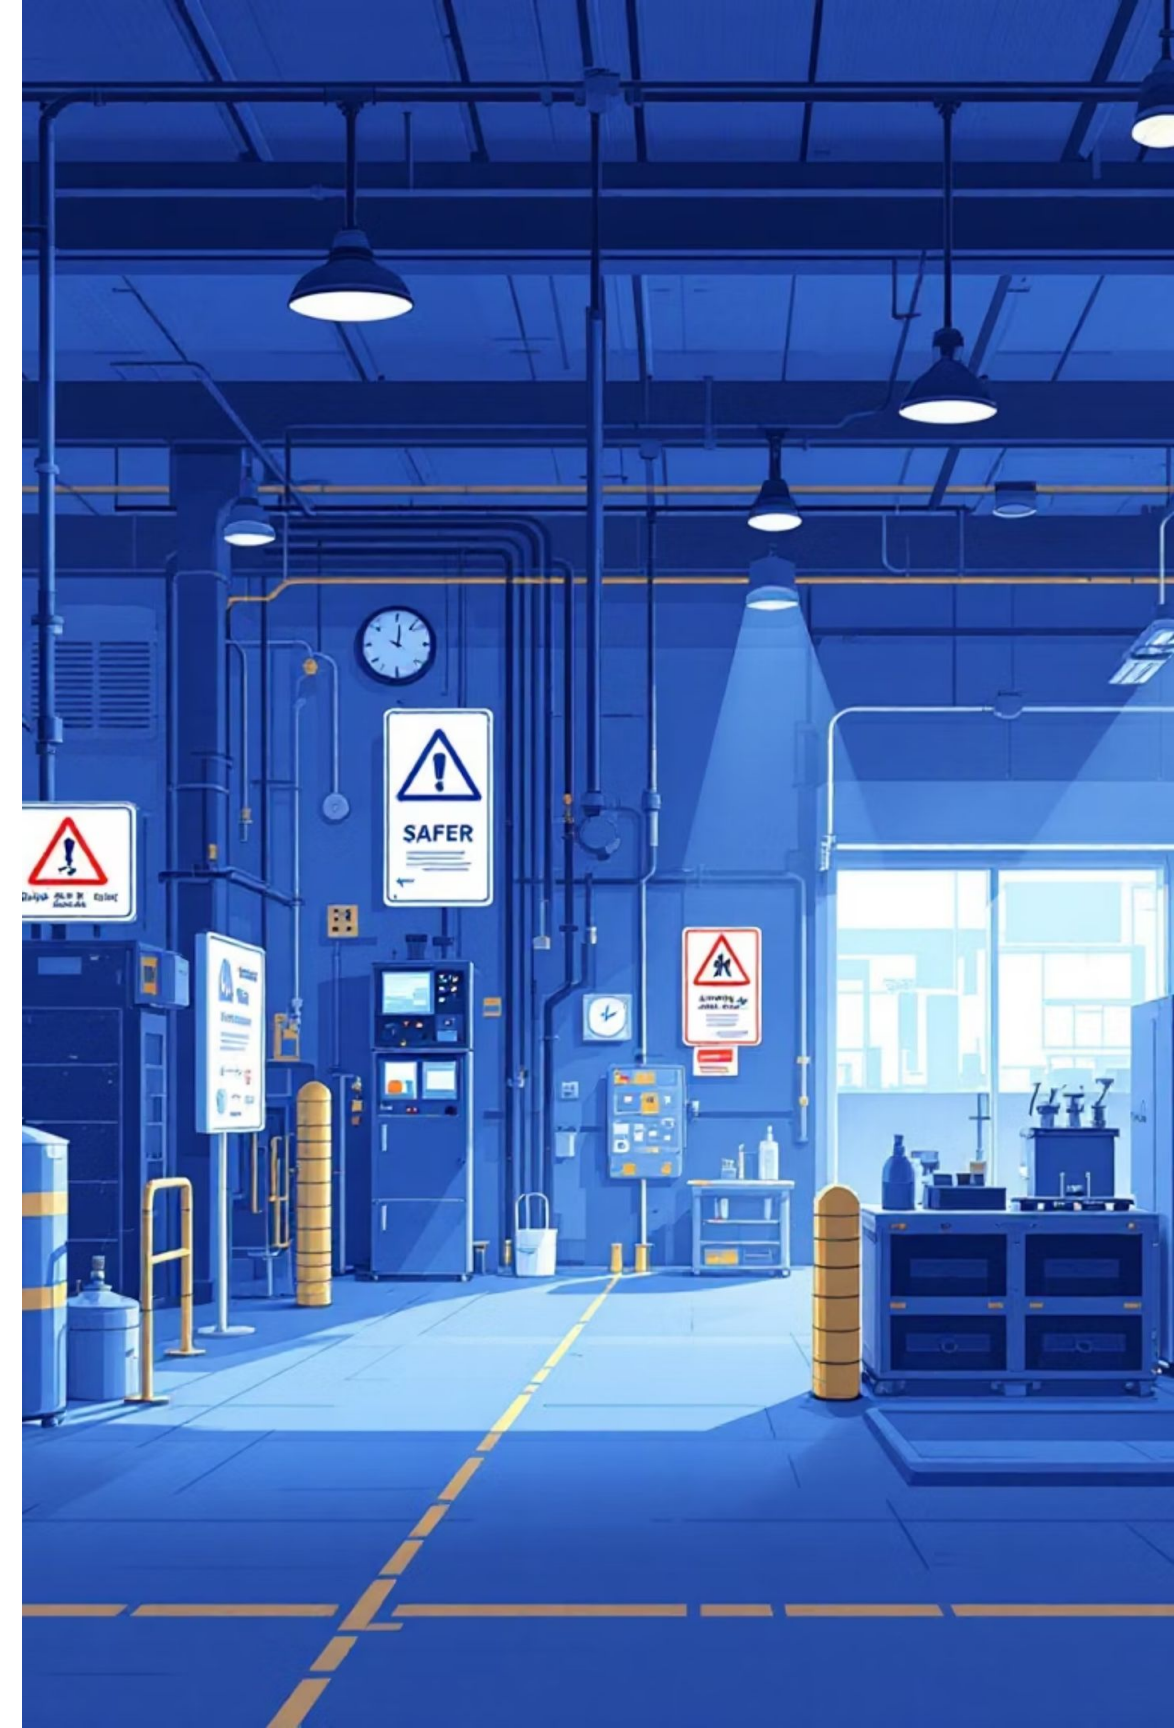

Durable aluminium composite panel signage with professional graphics—ideal for corporate branding, wayfinding, and safety signage in industrial facilities.

Adhesive Vinyl Solutions

High-quality vinyl films for equipment labelling, floor marking, safety notices, and decorative applications in commercial environments.

Industrial Consumables

Essential supplies including fasteners, tapes, lubricants, cleaning materials, and maintenance products for daily operations.

Your Trusted Industrial Partner

Why Choose Dikksha Corporation?

Comprehensive Product Range

Single-source supplier for electrical, automation, safety, and interior solutions—streamlining procurement and reducing vendor complexity.

Technical Expertise

Knowledgeable team providing specification support, product selection guidance, and installation consultation for industrial applications.

Responsive Service

Located in Ahmedabad's industrial hub with warehouse stock and rapid response to project requirements and urgent supply needs.
